# About Company

EBALCOM Engineering is a Strong and yet growing Telecom & ICT equipment and Solution Provider with cutting edge planning, designing, implementing, optimizing and sales capabilities. We have been a prime turnkey contractor providing end to end services for Telecom operators in Ethiopia. Having more than 20 professionals distributed in Ethiopia with vast experience in all aspects of Networks roll-out, our services include full technical support and consultancy services throughout all network rollout phases. Services include Network Planning, Site Acquisition, Site Construction, Installation, Commissioning, and Operation & Maintenance.

We provide end-to-end engineering infrastructure solutions to the telecommunications and power industries across Ethiopia. Employing a dynamic and personal approach, We integrate our core competencies with our clients' businesses to provide cost-effective solutions that allow our clients to succeed in their business goals. Why EBALCOM engineering? With EBALCOM engineering you are choosing a dynamic partner providing a single point of contact for all your requirements. We combine local expertise with international reach, providing innovative cost-effective solutions. With our vast experience in turnkey site build solutions we have the knowledge and experience to provide you with the solution that fits your needs. As one of the leading providers of Managed Services across the region we afford continuity of operations, allowing you to focus on your goals.

# Company Structure

# Mission & Vision

## Vission

Become the leading provider of managed services to the telecom industry in Ethiopia and the seamlessly integrating our core competencies with our customers' businesses, and providing cost effective solutions.

## Mission

Our mission is to provide our communities with progressive high quality communication technology services that enhance the value of life and economic development in the area we serve. Our goal is to provide efficiencies in communication technology consistent with the urban areas while living in a rural area.

We take pride in excellent service, integrity, and community involvement. We recognize that our employees are vital to this organization and the achievement of this mission. We are committed to maintaining the progressive growth and success of this organization.

# Our Services

## Fiber Optic Cable Installation

Let our team of engineers and technicians design and install your fiber optic cable link within your building, between buildings or across your city. We have been installing fiber optic cable systems and connecting locations to metro and regional fiber networks. Whether you have a need for a metro fiber optic cable link or just a pair of fibers run through your building, give us a call

- Intra building fiber cable
- Inter building cable
- Industrial fiber cable, manufacturing, mining, pulp and paper
- Metro fiber, campus and local fiber cable
- Cable route planning
- Right of way / easement acquirement
- Lease or own your fiber cable link

# Additional Services

## Network Installation and Testing

Our field engineers are highly qualified to install, test, and provision new systems or expand your existing live network with minimal or no traffic disruption.

- Fiber Optic networks
- SONET/SDH OC-3 to OC-192 terminals; STMI to STM64. (various manufacturers)
- SONET/SDH certified with Cisco 15454/15600 , Nortel Optera and Nortel S/DMS
- WDM, DWDM, CWDM, Couplers, EDFA, PON equipment (various manufactures)
- Equipment cable racks (Newton, ADC, Nortel, etc...)
- Trouble shooting new and existing live networks
- Cable ladder and auxiliary support structures
- Traffic rolling in live networks
- Fiber cabling, copper cabling (coaxial, and twisted-pair)
- DSX1/3 cabling & installation
- DC power supplies and batteries
- LAN/WAN networks
- Wireless networks
- Building inter / intra networks
- 24 x 7 telephone or on-site technical support
- Our network testing includes:
- Fiber Characterization tests
- Fiber span loss
- Fiber connector loss
- Chromatic and polarization mode dispersion
- Back Reflection (ORL)
- OTDR
- Nonlinear effects

# PRODUCT AND SOLUTION

*Infrastructure and Distribution solutions*

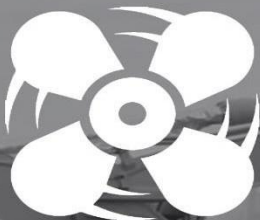

## POLES & TOWERS

## FIBERS & CABLING

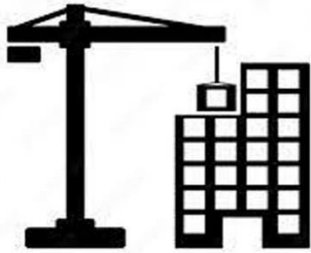

**Power, fans and air conditioning**

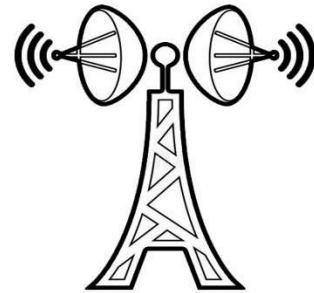

**MOBILE SITE**

## Construction and related

## Microwave, satellites and related

## Network, call center and data center

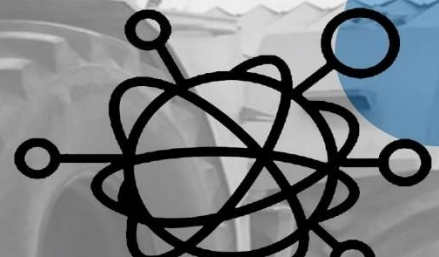

## Engineering

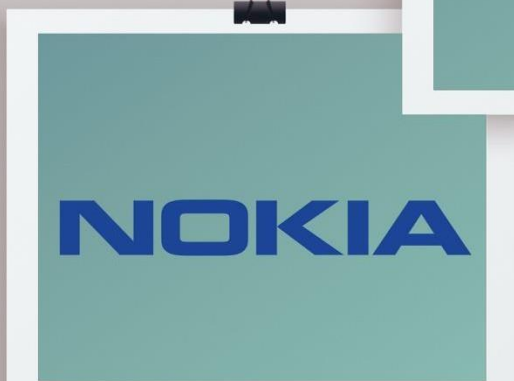

**Sales, marketing and Distribution of Internet, internet, mobile, SIM, Top-up and related solutions**

**Managed services**
